

## Mitigation of climate change: filling the knowledge gaps revealed by the Fourth Assessment Report

### Room V, Bella Center, Copenhagen, Denmark

A side event at the International Scientific Congress on Climate Change, 10-12 March 2009, organised by the Cambridge Centre for Climate Change Mitigation Research (4CMR), University of Cambridge, UK, in association with The Royal Society, London.

### Tuesday 10 March

16:45-18:30

This workshop will discuss gaps in the current knowledge of climate change mitigation.

### AIM

To highlight opportunities for collaborative research that addresses knowledge gaps, and assesses impacts of the financial crisis on climate change mitigation, in preparation for the IPCC Fifth Assessment Report.

Presentations will be short (15 minutes), each followed by 15 minutes of discussion.

### PROGRAMME

---

**Chair:** Professor John Shepherd, Fellow of The Royal Society and UK Tyndall Centre

- 16:45     **The economics of greenhouse gas mitigation post AR4 and the global financial crisis**  
Dr Terry Barker, Director, Cambridge Centre for Climate Change Mitigation Research (4CMR), University of Cambridge
- 17:15     **IPCC AR4 and key issues for social science**  
Professor Frans Berkhout, Director, Institute for Environmental Studies, VU University Amsterdam
- 17:45     **Filling the research gaps in climate change mitigation**  
Professor Rik Leemans, Environmental Systems Analysis Group, Wageningen University
- 18:15     Open discussion
- 18:30     Close
